

**CUT SHEET - PRODUCT DETAILS - TECHNICAL SPECS & PRICING FOR 2022:**

Welcome to Custom Mist rental division. We are southern California's premier mist system and misting fan Rental Company. Our commercial misting systems and fans can cool your special event up to 35 degrees and are perfect for keeping your crowd cool at your outdoor event ensuring your guests will remember your event and not the heat. We proudly deliver to all Southern California. Our portable misting fans are the most advanced, durable, and high-performance mobile cooling system on the market today and are rapidly becoming the mist cooling system of choice for high heat applications that are ideal for manufacturing facilities, livestock, distribution centers, automotive shops, theme parks, outdoor events, and all other locations where heat is a problem. Using flash evaporative misting technology, our sideline misting fans can reduce ambient temperature by up to 35 degrees instantly for ultimate cooling at a fraction of the cost of conventional air conditioning and all fans come standard with oscillating / vertical tilt adjustment for directional flow and oversized off-road wheels and tires for easy access over any terrain.
